

Long COVID?

- Brain Fog
- Fatigue
- Mood changes
- Headache
- Dizziness
- Taste or smell changes
- Cough
- Breathlessness
- Joint or muscle aches
- Palpitations

COVID-19 can cause symptoms that can last weeks or months after the infection has gone; this may be Long COVID.

If you think you have Long COVID, need advice with managing symptoms or feel you would benefit from a referral to a North West Long COVID Clinic, please scan this QR code or visit the websites below.
